

POULTRY and ANIMAL HOUSING

At Electric Fencing Direct we supply a range of **sensibly priced, handmade and robust** poultry, duck and small animal housing. Whether you are looking to house chickens, ducks, small animals or ornamental birds we can provide you with housing that suits your needs.

All Houses and Arks are built with **FSC Approved** (www.fsc.org) timber and are, therefore, both environmentally friendly and of a high quality. All timbers go through our tanning process which protects them from decay and gives a **lifespan of 15-20 years**.

All our Henhouses and Arks are built with a range of **practical features in mind**; including easy clean floors, large access doors and sensible positioned nesting boxes. They come flat packed with easy to follow, step by step instructions and we provide full support and guidance to ensure you are up and running in no time at all.

Our main Housing range for poultry covers two popular designs: the **Argyll Henhouse design** and the **Arran Ark design**. Along with the standard designs we also provide a bespoke design service whereby we design a House or Ark in the style of your choice. All of our Houses and Arks can have **name plaques** and **automated solar closing doors** added for a small additional cost.

Argyll Henhouse designs

The special roof pitch and dimensions of the Argyll Henhouse range make them an attractive addition to the garden, orchard or field. The unique roof pitch not only helps them withstand the strongest of winds but also provides space for an upper perch level to maintain the 'pecking order' of the birds in the house.

Suitable for all variety of birds the Argyll Henhouse range is a strong favorite amongst customers and will provide your birds with high comfort levels and you with good value!

All the houses in the range have the following features as standard;

- Attractive design for both urban and rural customers
- Strong tanned timber construction (lasting up to 20 years)
- Excellent through flow ventilation for healthy stock
- Removable external nest boxes
- Easy clean floors.
- Access door with large pop-hole

Whether you keep 2 or 50 birds there is an Argyll Henhouse to meet your needs. For larger Houses please just call or email us.

Arran Ark designs

Our range of Arran Arks are beautifully crafted and are ideal for both the urban and rural environment. The Arks are suitable for most birds, bar the very largest, and provide strong, safe and secure accommodation with a view!

All Arran Arks come complete with a galvanised welded mesh chicken run and are the ideal housing solution for those with either a small numbers of birds, broody hens or birds that need isolation/hospital accommodation. The housing area is about 1/3rd of the length of the complete ark.

All our Arks feature:

- Attractive design for both urban and rural customers
- Strong tantalised timber construction (lasting up to 20 years)
- Draft board at end of run to shelter chicks
- Removable house and run doors
- High quality and strong galvanised welded mesh panels
- Easy to move with non-protruding handles
- Designed to resist vermin

Whether you keep 2 or 50 birds there is an Arran Ark to meet your needs. For larger Arks please just call or email us.
